SUBJECT INDEX

Accuracy

Position Tolerance in Land Surveying, David A. Tyler, SU Oct. 87 p152-163.

Precision in Cross-Sectional Area Calculations on Earthwork Determination, Youssuf M. Siyam, SU Oct. 87 p139-151.

Analytical stereoplotters

From Mapping to Measuring With the Analytical Stereoplotter, W. H. Valentine, SU Oct. 87 p133-138.

Approximation methods

Precision in Cross-Sectional Area Calculations on Earthwork Determination, Youssuf M. Siyam, SU Oct. 87 p139-151.

Azimuth

Alternative Geometric Determination of Altazimuthal-Distance Covariance Matrices, Tomás Soler and Steven D. Johnson, SU June 87 p57-69.

Boundaries, properties

Technical Standards for Boundary Surveys Developing Model Law, Harlan J. Onsrud, Mathew C. Swanson and Steven D. Johnson, SU June 87 p101-115.

Compass rule

Traverse Adjustment for Observations from Modern Survey Instrumentation, William H. Sprinsky, SU June 87 p70-81.

Computation

Irregular Boundary Area Computation by Simpson's 3/8 Rule, Ismat M. El Hassan, SU Oct. 87 p127-132.

Computer aided drafting (CAD)

Computer-Aided Surveying in Urban Building Construction, Noel Harrelson, SU Feb. 87 p50-56.

Computer programs

Adjustment of Space Trilateration by STRUDL, Naguib F. Danial, SU Feb. 87 p11-27.

Construction management

Computer-Aided Surveying in Urban Building Construction, Noel Harrelson, SU Feb. 87 p50-56.

Covariance

Alternative Geometric Determination of Altazimuthal-Distance Covariance Matrices, Tomás Soler and Steven D. Johnson, SU June 87 p57-69.

Cross sections

Precision in Cross-Sectional Area Calculations on Earthwork Determination, Youssuf M. Siyam, SU Oct. 87 p139-151.

Data processing

Low-Cost Approach to Digital Mapping, Y. Doytsher and B. Shmutter, SU Oct. 87 p118-126.

Digital mapping

Low-Cost Approach to Digital Mapping, Y. Doytsher and B. Shmutter, SU Oct. 87 p118-126.

Earthwork

Precision in Cross-Sectional Area Calculations on Earthwork Determination, Youssuf M. Siyam, SU Oct. 87 p139-151.

Engineering surveying

Planning and Performing Surveys on Megaproject, Gerald Pavlic and Dan B. Chatfield, SU June 87 p82-87.

Environmental impact statements

Spatial Data for Modeling Wildlife Habitat, John G. Lyon, Joel T. Heinen, Roy A. Mead and Norman E. G. Roller, SU June 87 p88-100.

Geodetic surveys

Alternative Geometric Determination of Altazimuthal-Distance Covariance Matrices, Tomás Soler and Steven D. Johnson, SU June 87 p57-69.

Geoid

Orthometric Heights Without Leveling, K. P. Schwarz, M. G. Sideris and R. Forsberg, SU Feb. 87 p28-40.

Global positioning

Orthometric Heights Without Leveling, K. P. Schwarz, M. G. Sideris and R. Forsberg, SU Feb. 87 p28-40.

Height

Orthometric Heights Without Leveling, K. P. Schwarz, M. G. Sideris and R. Forsberg, SU Feb. 87 p28-40.

Irregular boundaries

Irregular Boundary Area Computation by Simpson's 3/8 Rule, Ismat M. El Hassan, SU Oct. 87 p127-132.

Land surveys

Position Tolerance in Land Surveying, David A. Tyler, SU Oct. 87 p152-163.

Technical Standards for Boundary Surveys Developing Model Law, Harlan J. Onsrud, Mathew C. Swanson and Steven D. Johnson, SU June 87 p101-115.

Least squares method

Traverse Adjustment for Observations from Modern Survey Instrumentation, William H. Sprinsky, SU June 87 p70-81.

Legal factors

Technical Standards for Boundary Surveys Developing Model Law, Harlan J. Onsrud, Mathew C. Swanson and Steven D. Johnson, SU June 87 p101-115.

Leveling

Orthometric Heights Without Leveling, K. P. Schwarz, M. G. Sideris and R. Forsberg, SU Feb. 87 p28-40.

Management

Planning and Performing Surveys on Megaproject, Gerald Pavlic and Dan B. Chatfield, SU June 87 p82-87.

Mapping

Mapping for Municipal Planning and Engineering —Back to Basics, Kurt W. Bauer, SU Feb. 87 p41-49.

Planning and Performing Surveys on Megaproject, Gerald Pavlic and Dan B. Chatfield, SU June 87 p82-87.

Measurement

From Mapping to Measuring With the Analytical Stereoplotter, W. H. Valentine, SU Oct. 87 p133-138.

Model verification

Spatial Data for Modeling Wildlife Habitat, John G. Lyon, Joel T. Heinen, Roy A. Mead and Norman E. G. Roller, SU June 87 p88-100.

Multiple purpose projects

Computer-Aided Surveying in Urban Building Construction, Noel Harrelson, SU Feb. 87 p50-56.

Municipal engineering

Mapping for Municipal Planning and Engineering —Back to Basics, Kurt W. Bauer, SU Feb. 87 p41-49.

Pollution abatement

Planning and Performing Surveys on Megaproject, Gerald Pavlic and Dan B. Chatfield, SU June 87 p82-87.

Sensitivity analysis

Spatial Data for Modeling Wildlife Habitat, John G. Lyon, Joel T. Heinen, Roy A. Mead and Norman E. G. Roller, SU June 87 p88-100.

Site surveys

Solar Access Surveys, Alan P. Vonderohe, SU Feb. 87 p2-10.

Social aspects

Technical Standards for Boundary Surveys Developing Model Law, Harlan J. Onsrud, Mathew C. Swanson and Steven D. Johnson, SU June 87 p101-115.

Solar collectors

Solar Access Surveys, Alan P. Vonderohe, SU Feb. 87 p2-10.

Solar energy

Solar Access Surveys, Alan P. Vonderohe, SU Feb. 87 p2-10.

Space truss

Adjustment of Space Trilateration by STRUDL, Naguib F. Danial, SU Feb. 87 p11-27.

Spatial data

Spatial Data for Modeling Wildlife Habitat, John G. Lyon, Joel T. Heinen, Roy A. Mead and Norman E. G. Roller, SU June 87 p88-100.

Standards

Position Tolerance in Land Surveying, David A. Tyler, SU Oct. 87 p152-163.

Technical Standards for Boundary Surveys Developing Model Law, Harlan J. Onsrud, Mathew C. Swanson and Steven D. Johnson, SU June 87 p101-115.

State laws

Technical Standards for Boundary Surveys Developing Model Law, Harlan J. Onsrud, Mathew C. Swanson and Steven D. Johnson, SU June 87 p101-115.

Surveying

Computer-Aided Surveying in Urban Building Construction, Noel Harrelson, SU Feb. 87 p50-56.

Traverse adjustment

Traverse Adjustment for Observations from Modern Survey Instrumentation, William H. Sprinsky, SU June 87 p70-81.

Trilateration

Adjustment of Space Trilateration by STRUDL, Naguib F. Danial, SU Feb. 87 p11-27.

Urban planning

Mapping for Municipal Planning and Engineering —Back to Basics, Kurt W. Bauer, SU Feb. 87 p41-49.

Vertical angles

Alternative Geometric Determination of Altazimuthal-Distance Covariance Matrices, Tomás Soler and Steven D. Johnson, SU June 87 p57-69.

Volume measure

Precision in Cross-Sectional Area Calculations on Earthwork Determination, Youssuf M. Siyam, SU Oct. 87 p139-151.

Wildlife habitats

Spatial Data for Modeling Wildlife Habitat, John G. Lyon, Joel T. Heinen, Roy A. Mead and Norman E. G. Roller, SU June 87 p88-100.

AUTHOR INDEX
